News 3 new results for hydraulic fracturing

PYLE: Natural gas naysayers ignore the facts

[Washington Times](#)

Thanks to technologies such as hydraulic fracturing, the United States is the world's largest producer of natural gas. But while domestic natural gas and oil production continues to increase, opponents of the new technology continue to become more ...

Author of US fracking study had gas industry ties: watchdog

[AFP](#)

Lead author Charles "Chip" Groat, of the University of Texas, told reporters when the research on hydraulic fracturing was presented at a major science conference in Canada in February that the university had turned down all industry funds for the study.
